

PE has a key role in helping us as a school community to support, contribute, compliment and ultimately achieve our aims and responsibility which is to help prepare students for the next stage in their lives by helping them to develop the skills they need to cope with uncertainty; to cope with differing perspectives and respond with empathy; to strive to seek wholeness through faith, quest and learning, to become what God intends us to be.

The focus of the core PE curriculum in year 10 and 11 is to give students greater flexibility and options that engage them and encourage them to take responsibility for their own participation by allowing them to further develop their understanding and practical abilities in their areas of interest.

In year 10 and Year 11 each term the activities offered will follow those available during lower school.

The focus of the curriculum in year 9 is to allow students to continue to develop and begin to use more advanced skills, techniques and tactics and begin to apply these in more challenging and competitive situations.

The focus of the curriculum in year 8 is to allow students to build upon basic skills, techniques and tactics and begin to apply these in more challenging and complex situations.

The focus of the curriculum in year 7 is to introduce a variety of sports to our students. In year 7 students will learn the basic skills, techniques and tactics.

Assessment in Years 7-9
At the end of each term you will be graded in each sport. For each sport depending on the progress which you make you will be awarded a Gold, Silver or Bronze award. At the end of each year you will be given an overall grade in PE.
